

## CREATING IBM CLOUD SERVICE

Date	31 OCTOBER 2022
Team ID	PNT2022TMID09849
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

The screenshot displays the IBM Cloud Dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user profile (Shalini Narayani T's Ac...). Below the navigation bar, the main content area is titled 'Dashboard' and includes options to 'Edit dashboard', 'Upgrade account', and a prominent 'Create resource' button. The dashboard is divided into sections. The 'For you' section features a 'Build' card with a blue gradient and a 'Select an option' dropdown. Below this, there are six cards for quick starts: 'Build a web app with Watson Speech to Text' (15 min), 'Get Started with Watson Studio' (2 hr), 'Build a Virtual Private Cloud (VPC)' (7 min), 'Incorporate DevOps into your process' (20 min), and 'Get started with Watson Discovery' (20 min). The bottom section contains 'User access' (Manage users), 'News' (View all) with links for 'IBM Cloud Satellite New Pricing' and 'IBM Cloud Data Shield Deprecation', and 'Planned maintenance' (View all). The Windows taskbar at the bottom shows the date as 17-11-2022 and the time as 20:28.

An IBM Cloud Service created Successfully .
